

# Scoreboard Weighing Indicator

## GSI409A

### INTRODUCTION

The Scoreboard Weighing Indicator is a terminal display device supporting various electronic weight indicator. It adopts microcomputer control and ultra-bright pen segment module for digital display. Therefore, it has the characteristics of high brightness, long life, stable and reliable, beautiful appearance, light structure, convenient installation and simple operation, etc. It is suitable for various occasions indoors and outdoors day and night.

### FEATURES

- Environmental working conditions : a. Operating temperature :  $-10^{\circ}\text{C} \sim +40^{\circ}\text{C}$  b. Relative humidity :  $< 85\% \text{RH}$
- Voltage : 110V/220VAC 50HZ
- The product model, display Character height, and External dimensions are listed in the following table :

Product model	Character height (mm)	External dimensions (mm)	Housing material	Light-emitting element and color
3 inch	82	430*180*50	Default 201 stainless steel material Optional 304 stainless steel material	Red, green optional
5 inch	130	730*240*58		
8 inch	200	900*320*78		

- Data interface : The large-screen display receives the RS-232C (TXD)/RS-485 serial continuous output of the instrument ;
- These displays can connect Scoreboard Weighing Indicator : GSI401-1 , GSI401-2 , GSI404-1 , GSI408 , GSI320 , GSI201 , GSI201+P-1。
